EARTHQUAKE

A monotonous life can be a prosaic experience. To drive away darkness, a burst of flame is at times more essential than a lamp. And a torrential shower more than a drizzle.

I'd like to welcome all of you present here to the inauguration ceremony of this bridge.

Namaste. This bridge is not just concrete of metal and cement. It is also the means to connect you to the government.

This bridge is an avenue to boosting your economic and social status. Namaste!

It is a path for development to reach your doorstep. Therefore, you have a responsibility in the maintenance of the bridge.

Since our Transport Minister was unavailable, and in his absence the Chief Secretary is inaugurating the bridge.

Since our Transport Minister was unavailable, and in his absence the Chief Secretary is inaugurating the bridge.

Since our Transport Minister was unavailable, and in his absence the Chief Secretary is inaugurating the bridge.

Mr. Lawyer, what are our chances of winning in the appellate court?

Pakko, we had to take responsibility.

Moreover, your father admitted to organizing the protest.

And he's already served eight years. There must be some value of it. Isn't it?

An appellate requires evidence of a mistake by a lower court.

Okay. I'm also collecting money.
Research Grant Awarded to Dr. Ramesh Singh

Dear Dr. Singh,

It gives me great pleasure to inform you that the Institute of Cardiology Research and Studies has reviewed your research grant proposal positively. Due to unforeseen circumstances, a previous applicant who was eligible for this grant before you had to be cancelled so we now award the research grant to you. The Grant is to be made upon the following terms and conditions:

1. The total project grant award for the period of between January 2017 – January 2018 is $5000.00. This grant amount includes your travel and board. The supervising institution is the Institute of Cardiology Research and Studies, Pennsylvania, USA. The Mentor is Michael Shipler. The financial contact is Lena Stachemalis.

2. The Grant is awarded on the condition that proof of registration is provided, approved and received. The enclosed budget supersedes any previous grant request. These requirements must be met and the project must begin on or before the given date.

3. This Grant shall be paid to the supervising institution, under whose supervision, and with the guidance of the Mentor, the Principal Investigator shall be responsible for the research or other activities that are required to complete this project.

4. Upon receipt of a fully signed copy of this grant letter and proof of fulfillment of all conditions specified in section 2 above, the first disbursement will be sent to Dr. Ramesh Singh.

5. Semiannual progress reports are due two months after the close of the project period.

Dr. Singh, I am sure you will agree that this is a great opportunity for your project. I look forward to hearing from you soon.

Sincerely,
Jack Norton

My daughter started her work at Rolpa Hospital. She delivered her first successful cesarean baby today.

Eh, ho? I'm so happy! My daughter delivered a healthy baby at Rolpa Hospital today.

These are the documents for the meeting with international delegates tomorrow.

Let's hope they will accept our proposal. We can then get started on the new roads and hydropower plants.

That's what we call a perfect plan. Satisfied public, happy investors, and our success.

And in a few years, we will be able to pay back our investors.

Earthquake strikes at Baglung too
Newly made Bridge collapses

Sumnima, call the Chief Secretary and find out the magnitude. Where was the epicenter?

Is your family okay? Call my home and check. Call Aditya's school.

Let's move out. Please.

Navin carries his injured uncle to the hospital.
An earthquake struck with its epicenter in Baglung. Preliminary readings place the intensity at 7 Richter scale.

Informed by the Department of Mines and Geology, the tremors were felt in most parts of Nepal and in some parts of India.

Sumnima frantically trying to get in touch with Navin.
The rescue team has reached the most affected parts. Fatalities and the damage to property is not clear yet.

According to the information shared by a local reporter, cracks have appeared in the newly built bridge located 10 km north-east of the headquarters in Baglung that has blocked the movement.

Mr. Chief Secretary, prepare my visit to Baglung.

But there is an international trade delegation tomorrow. That was our main priority.

That is true. But emergency rescue efforts are on. Will your immediate visit be practical?

People are my first priority.

Where were you at the time of the earthquake?
I was checking on my patients. You could have sent someone to pick Aditya up. When you called, I was already at the school. He was so scared.

M was scared for him too. Also you wanted to tell me something in the morning?

Eh? Congratulations!!

Oh yes, Do you remember that you encouraged me to apply for a research grant? I got it.
Congratulations to you too. But sooner than expected. They have called me next month.

Yes... Am we in?... Next month?... Wait, is it shaking again?

Your phone is vibrating.

Hello, yes Sumnima... Fine, I’ll reach the airport by 6 am. Okay. Thank you. Good night.
आवास को पहुँचने के बाद निकलो।
Asha's phone rings again.

व... तो आये मुझसे फोन करो।
There's your earthquake again.

अंतराल अकेले बुधा बुझा।
Hello, Yubars. Yes, please stop by.
This meeting is really important for us Yubaraj. By the way, how is Ramananda Sir doing now?

He’s become impatient these days. He wants to be involved in each of our discussion and plans.

What could be the possible long term interest for them to invest in our country’s infrastructure? I’ll make them clear about benefit and satisfaction they’ll have.
But his health is deteriorating day by day.

Ramesh wakes up to find a hand written note from Asha.

On the note:

You were sleeping like a baby so I didn't want to disturb.
Asha reaches Baglung.

And What is the situation of the bridge?

We have closed it for now as a safety precaution. It will be as per the decision taken by the specialists after the inspection.

And are there facilities of toilets and water for the people staying in open spaces?

Toilets and water are not a problem. We are facing problem in retrieving people's belongings from the fallen houses...
The Center does not listen to us. We are forced to go to the police. Our work is just to act on the decisions.
Mr. Pandey, we will proceed towards the new system but this is also a time consuming process. We will have to wait patiently to benefit from the new constitution and federalism.

...Hatvdurbar...the capital of the state...and now...is also...a time-consuming process...

The Building Code clearly states the amount of sand and concrete that has to be mixed.

What sort of bridge is it that it can't even withstand a 7 Richter scale earthquake? Did you test the soil before constructing the bridge?
Were other procedures met? A strong earthquake just struck us and it's the same.

The document shows that everything was done as per the rule.

Well, something was wrong somewhere. Someone was careless or there was malfeasance.

We're going to find the guilty party and they'll be punished.
Hello, Mr. Dhakal. We are going to the appellate court. Give me a bit more time. I'll manage the money.

Take this key and go get the land papers.

Our plan offers a generous return on the investment in infrastructure...
I apologize for being late.

Mr. Yubaraj, please continue.

The Government will put forward regulations and systems strictly. We will buy materials from the stakeholders and that the projects do not get affected by political activities.

Madam Prime Minister, relief supplies have been sent already.
Yes, everything! We have the National Disaster Response Framework. It has mentioned roles and responsibilities quite clearly.

So, the relief supplies are not on the ground? It has been more than 24 hours. We have to be proactive.

The nearest runway for the C-130 is more than an hour away and the roads are not yet safe to drive.

During times like these, we should give more authority to the local administration to take decisions.
The visit of the Prime Minister was a much needed boost to the morale of the local people. This has created bustle at relief distribution department, but still the supplies have been delayed.

Hello. What is delaying us from getting relief materials to the ground quickly?

No news of missing people. Wounds of the last quake haven’t healed and the people of Baglung suffer again.

Our people don’t want excuses, Asha. In year 2012, there were many plans initiated. What happened to all of those? If we handle this disaster…

History will remember how our government handled this, Asha. This kind of disasters can make or break a government.

And reconstruction will start soon. But the aftershocks are still continuing.

Madam Prime Minister, the report is exactly as I expected. The mixing of cement was improper in the bridge that collapsed.
Dear, your state, the government is aware of this. We have already taken steps to restructure the government.

I don’t think the building code was followed. Hence, you’ll have to launch an investigation Committee.

Today, it’s a bridge, tomorrow it could be another public infrastructure. Rolling out the electronic bidding system and strict monitoring would help.

We need to start honest monitoring. If corrupt people are strictly punished, it would surely improve.

An 8.8 magnitude earthquake in Chile took 500 lives but in 2010, an earthquake of 7 magnitude... claimed 2,20,000 lives. Why? Because of strict building code in Chile.

Dinner’s ready! Should we wait for a while?
No, I am hungry. I’m going to eat!

Phone rings.

Hello Asha, you did good work. Well done! I also postponed the research grant for a year.

Aah, you made a really good word there!
The meeting is successful and both parties sign the agreement.

Congratulations.

Storms should rage, how else do we learn to stand firm like a rock? We learn to maneuver by jumping into raging torrents. What happens when our dreams don’t get realized? Don’t mourn the destruction, garner strength for reconstruction. Every ending has a new beginning. Who fails will succeed in the end.
SINGHA DURBAR – PHOTO NOVELLA
The 13 Photo Novellas has been produced to strengthen the messages of good governance and collaborative leadership as depicted in Singha Durbar TV Series. This guideline will further direct the use of Photo Novellas and the message it carries. Ask questions and get talking about the issues dealt in the Photo Novella.

PARTICIPANTS:
Students, youth leaders, upcoming political leaders, political leaders, and general public.

DISCUSSION GUIDELINES:
SFCG Nepal believes in meaningful participation of target audiences. Audience views/participation should not be influenced, manipulated, or planted. The facilitator need to be mindful of the following:

<table>
<thead>
<tr>
<th>Do</th>
<th>Don’t</th>
</tr>
</thead>
<tbody>
<tr>
<td>Listen to them. Participants will want to share their stories with you.</td>
<td>Give information but instead allow people to discuss the information they require.</td>
</tr>
<tr>
<td>Protect privacy. If you feel someone is about to speak inappropriately about someone else, you may need to interrupt with a reminder. This is called protective interruption.</td>
<td>Take sides. Keep personal opinions at bay. Instead, take interest in what the participants are saying.</td>
</tr>
<tr>
<td>Get participants to take down notes of issues they feel need to be discussed or highlighted.</td>
<td>Portray yourself as an authority figure.</td>
</tr>
</tbody>
</table>

QUICK NOTES:
• Up to 10 participants with round table setting.
• 30 minutes of Singha Durbar TV series and 30 minutes for discussions.
• One facilitator.
• Take photos and also seek for permission from the participants.
• It is important to set-up the projector, laptop, and episode before the participants arrive to save time.
• Share your experience and photos with us at sfcgnepal@sfcg.org.

EPISODE 8: DISASTER RISK REDUCTION, EARTHQUAKE, DECISION MAKING AND ACCESS TO JUSTICE.

STORY:
Prime Minister Asha’s government is tested by an earthquake which destroys houses in Banglung. PM Asha orders for a field visit while also preparing to meet a high level international delegation. The Chief Secretary, on the other hand, is confronted with his own failure when a new poorly constructed bridge collapses during the earthquake. Blogger and Journalist, Navin Gurung, also moves forward to free his father from jail. A new piece of information leads him towards Ramananda Jha, who was the home minister when Navin’s father was jailed eight years ago.

QUESTIONS:
1. What did you like about this edition of the novella? Which part did you connect to?
2. How does a Prime Minister prioritize time when everything is important, especially during the time of disaster?
3. Being a leader, do you think Prime Minister Asha made the right decision to visit the earthquake victims?
4. How did corruption fuel the poorly contracted bridge to collapse?
5. What leadership skill can you learn from this edition of the novella?
